

New Bridge to Northwest Side of Town

New Bridge

- Construction Cost Estimate \$750,000-\$1,100,000
- Recommended Placement at Butte or Gothic Avenue
- Span 90'-100'
- Recommended Width 36'

Traffic Counts and Traffic Demand

- During Peak Hours approximately 20%-30% of Elk Avenue Traffic is generated from the Northwest side of Town
- There are approximately 180 Residential units served by the bridges at Elk and Maroon Avenue
- A New Bridge could redistribute the impacts on Elk Avenue by providing an alternative egress to 6th Street
