

Four Way Intersection Improvements

Four Way Roundabout

- Construction Cost Estimate \$800,000-\$1,200,000
- Chamber of Commerce can remain
- Pedestrian medians can be installed to create buffers
- Maintains continuous traffic flow
- Will require reconfiguration of existing right-of-way
- Bus stops can still function in their locations
- Pedestrian Crossing on north side a challenge

Four Way Stop Light

- Construction Cost Estimate \$300,000
- Infrastructure in place to accommodate light
- Existing roadway can be utilized
- Light can be changed to flashing red during off seasons if not warranted
