

US Youth Soccer's Seven Reasons for Small Sided Games

1. Because we want our young soccer players to touch the soccer ball more often and become *more skillful* with it! (Individual technical development)
2. Because we want our young soccer players to make *more, less-complicated decisions* during the game! (Tactical development)
3. Because we want our young soccer players to be more physically *efficient* in the field space they are playing in! (Reduced field size)
4. Because we want our young soccer players to have more *individual teaching time* with the coach! Less players on the field and less players on the team will guarantee this! (Need to feel worthy and need to feel important)
5. Because we want our young soccer players to have *more, involved playing time* in the game! (More opportunity to solve problems that only the game presents)
6. Because we want our young soccer players to have *more opportunity to play on both sides of the ball!* (More exposure to attacking and defending situations)
7. Because we want our young soccer players to have *more opportunities to score goals!* (Pure excitement)
